MONDAY MORNING, DEC. 19, 1859.

France and Ergiand. Form merchants of Liverpoor have writte Louis Narozaos, inquiring his intentions regarding the invasion of England. The French Emperorpopiles, through his secretary, that the invasion alarm is groundless; that he is Eng-land's firm ally, and that he desires the English people to place the most implicate confidence in his good faith. After this authorative expression of Louis Narouson's friendly sentiments, the people of England must feel relieved. They know how truthful Narouson III. has been, and how religiously he has kept all his on he and premises. The history of the Coup d'etat is sufficient to assure them that they have nothing to fear.

Yet, we suspect the four Liverpool merchants to be only practical jokers. In addressing their letter to the Emperor of the French, they could not have expected a different reply from that which they got. They must have known in advance that he would not advertise his intention of inveding England. They must have known also that he would make the most emphatic protestations of his desire to maintain the Engish alliance. It was, indeed, an insult to Louis Barotson to doubt his warm friendship for the English nation, and we wonder that he did not resent the impertinence of the four Liverpoei merchents who addressed to him a letter. which, from its very nature, reflected upon his character as a man of truth and hopor.

We have not a particle of doubt that Louis NAPELEON desires to put an end to the invasion slarm. He does not wish to have England converted into a camp, or her ports and coasts fortified against the landing of an invading force. The more defenceless she is, the more easily can he make her his servant in carrying out his policy of elevating France to the dignity of being the arbitrator of the destintes of the nations of Europe. Thus far, he has played his role with consummate ability, and he stands now, confessedly, the ablest politician and the most powerful ruler in the Gld World

The Brooklyn Perrice.

The Brooklyn Ferry question has taken a new turn. It appears that Ald. DAYTOS, of Brooklyn, who seems to take an interest in the Union Company's affairs, came to this city on Friday ast, and notified Comptroller Haws that upon the application of the Attorney General of the State, Judge Hogenoom, of Columbia County, had issued an injunction, restraining the sale of the Ferry leases. The ground upon which the injunction was applied for is stated to be that the forry franchises belong to the State, and not to

The proceeding looks like another movement to produce delay and discourage capitalists from competing with the Union Ferry Company, or rather with the new Company who are to be the heirs of that famous monopoly. While the Company thought that they had everything right for themselves, they sought to hasten the sale, but when, in consequence of Mayor TERMANN'S objections, the terms of sa'e were altered so as to abrogate the present leases which have some time to run, and thus open the way for fair competition, the Company changed its tactics.

By creating delay, under the changed state of hings, the Company gains time for a new plan operations, and those who would be competitors at a fair sa's are wearied and disgusted with the tricks and dodges resorted to. Now that the right of the city to the Ferry Franchises is questioned, we may expect a long legal campaign, which the Union Company will hold possesion, and perhaps succeed in making the Legislature its servant to perpetuate its oppressive monopoly. Unless the people of Brooklyn bestir themselfes and be true to their own interests this heartless monopoly will fasten itself upon them for an indefinite period of time.

There can be no doubt that the State holds the power to regulate and establish the rates of fare on all the ferries to Brooklyr, but the ferry franchises—the right to locate and establish for rice—has been conveyed to the city of New York as clearly and distinctly as any piece of prop-- arty was ever conveyed by one party to another.

The New Common Concell.

THE Board of Aldermen for 1860 is Democratic, and quite an active canvass is going on for the position of President. Aid. Pacs, of the 20th Ward, is supported by the "Simon pure" Tammany men, and Ald. Ganar, of the 12th Ward, is put forward by those who do not wish any lines drawn between Tammany and Mozar'. GENET and PACK both belong to the Tammany organization, and their friends will probably harmonize the matter.

The Board of Councilmen, for next year, will stand 16 Democrate to 8 Opposition. For the Presidency of the Board there are four or five candidates, the most prominent being Morgan JOHES, JOHN VAN TINE and A. L. SHAW. It is quite possible that the Opportion members, in this conflict of interests, may have the decision of the Presidency.

To Mesers. Shaue, Neiloz, Irving and Blackwell, merchants at Liverpoot:

Gentlemen:—You have addressed yourselves direct to the Emperor, to know what were his intentions as regards England. Great fear or great confidence alone could explain this step. On the one side, you are possessed by the imaginary trouble which appears to have seized your country with the rapidity of epidemic; and on the other, you recked on the loyalty of him from whom you destre a reply. It was, however, easy for you yourselves to give it, if you had calmly examined the true cause of your apprehensions; that cause you would have found only in all those rumors created areng your fellow countrymes by the obstinate propagation of the most chimerical of alarms; because, until now, under whatver circumstances, there has not been a word or an act of the Emperor which could permit a doubt of his sentiments, and, consequently, of his intentions towards your country. His conduct, invariably the same, has not ceased for one moment to show him as a faithful and irreproachable ally. Vice and Laxary.

Vice and Luxury.

The following passage on the relations of luxury and ostentation in Rome, and the vices of the empire, is taken from a work "On the Strength of Nations," by ANDERW BISSAT, just published in London:

"There seems to be an association between certain vices and a profuse and ostentatious extravagance in dress, both in men and women; but particuary in the latter. The Countess of Somerset, such as was suspected, of Prince Hassay, wors on the occasion of her marriage with the Earl of Somerset, a coronet which was valued at \$4.2.00; and the clothes of the Earl of Somerset, also were covered with precious stones. As urrusa, the wife of the Emperor Claubius, who, like the English Countess above mentioned, was an adustress and murderess, speared in public on one occasion, in a magnificent robe, which, as some read the passage, was a tissue of pure gold, without any interanxoure of other materials. Califuth was costly and effections in the dress of the Roman women of that time may be judged of by what appears at the present day, when we see many women, without regard to the means of their fathers and husbands, striving to ape queens and empresses in the extravagance and coefficient frees. It is not such foolish luxury that enables the women to produce the men who coastitute the real strength of a nation—men "such as the Dorie modiers bore."

Motion to set aside Pischarge of Arrest.—

Pedro Palle, vs. Atbert N. Hasse. This was an application to set aside a discharge of the defendant from arrest, made in November, on the ground that the order was obtained by fraud and the practice of deception upon the Court who granted it. It appears that is May last, the defendant was arrested at the suit of the pisintiff, upon a charge of swindling him out of \$8.500, principally in segars, by means of false pretences. He was committed on the charge and held in custody until the middle of November when Hon. F. P. Tallmadge appeared as his counsel, and obtained an order for his discharge. Plaintiff's counsel aleges that the same motion was made on the 12th of that month, and denied for insufficiency of statement in the papers; that without any notice to the plaintiff whatever, it was again renewed before another Judge, by whom it was granted. In this lies the fraud and deception alleged. F. P. Tallmadge appeared for the defendant, and donied all irregular practice in the matter, and averring that no fraud was intended or practiced. In the matter of Gustave Schitting.—In this
case, the seconed is claimed by the Government of
Wurtenbury under a treasy made between the United States and the King of Bavaria. A preliminary
point, as to the accused being liable as a fugitive,
was related by his caunesi, which the Commissioner
decided this morning adversaly, and randered the
following opinion:—Ridd that the accusation of Wurteraburg to the treaty hatevess the United States and
Frustes and other German States, readered it a void
convention as between this Government and Wurteraburg, and gave to Wurtenburg all the benefit of
the provisions. That the states of limitations of the
State of New York will not, in this case, arrespi the
prisoner, as he does not bring hissail while its provisions. On this sandless I can be examinable. That
as application to the Freedoms on behalf of the fartier government is not meccanary prior to the application to the Commissioner for a warrant of arrest,
